CAREER OBJECTIVE

Computer Science student with strong skills in Web Development, Machine Learning, Predictive Modeling, and Data Structures. Proficient in Python, C, C++, JavaScript, and data analysis, with a passion for building efficient applications and solving real-world problems through data-driven and technology-driven solutions.

EDUCATION

Dr. B.C. Roy Engineering College , Durgapur	2022–2026
B.Tech in Computer Science & Engineering	CGPA: 6.17
Jhargram Banitirtha High School	2022
Higher Secondary (WBCHSE)	74.4%
Jhargram Kumud Kumari Institution	2020
Secondary (WBBSE)	64.4%

EXPERIENCE

AI/ML Intern	[Certificate]
Institute For Advanced Learning & Skill Development, Kolkata March 2025 – July 2025	
- Performed data preprocessing and feature selection using Pandas and Scikit-learn. - Built and evaluated machine learning models for laptop price prediction. - Used Accuracy, Precision, Recall, and F1-Score for model evaluation.	

PROJECTS

Sleep Apnea Detection using Machine Learning	[GitHub]
- Developed a web-based Sleep Apnea Detection system using Machine Learning and ECG-derived features. - Implemented data preprocessing, feature engineering, model training, and real-time prediction. - Built a secure Flask application with user authentication and manual patient data input.	
Laptop Price Prediction	[GitHub]
- Developed ML models using Linear Regression, Decision Tree, and Random Forest. - Performed preprocessing, feature engineering, and model evaluation. - Visualized insights using Python and Matplotlib.	
ResumeCraft – Resume Builder Website	[GitHub]
- Built a responsive resume builder using React. - Added customizable templates and one-click PDF export. - Optimized for desktop and mobile devices.	
Deployment Automation Framework	[GitHub]
- Developed an automated deployment dashboard. - Integrated Git version control. - Reduced manual deployment effort.	

TECHNICAL SKILLS

Languages: Python, C, C++, JavaScript, SQL, PHP
Web: HTML, CSS, React
Machine Learning: Scikit-learn, Pandas, NumPy, Feature Engineering, Model Evaluation
Database: MySQL
Tools: Git, GitHub, VS Code, Jupyter Notebook
Core Concepts: Data Structures, Algorithms, Object-Oriented Programming (OOP)
Soft Skills: Problem Solving, Teamwork, Adaptability, Consistency

CERTIFICATIONS

- Python for Data Analysis: NumPy & Pandas** – Coursera
- Machine Learning for All** – Coursera
